

Dr. Dominik Bergs

Service Manager Chlor-Alkali

thyssenkrupp nucera AG & Co. KGaA

Dominik Bergs is a Senior Manager at thyssenkrupp nucera in Dortmund.

Dominik, a graduate in chemical engineering, received his PhD in plant and process design in 2013 from the Technical University Dortmund (TU) in Germany.

With over a decade of expertise in the chlor-alkali electrolysis industry, he possesses extensive experience. From 2013 to 2017, he played a pivotal role in process engineering planning and coordination within electrolysis plants. Additionally, he dedicated over a year to on-site commissioning management and consulting.

Since joining thyssenkrupp nucera in 2017, he has consulted and supported electrolysis plants in Europe, Saudi Arabia, Qatar and Cuba.
